

Dear Readers,

First of all a hearty Italian greeting.

It is with pleasure that I introduce the new Guide of EDUITALIA, a no profit organization which has among its basic aims the international diffusion of the Italian culture in the field of "Study Abroad".

The EDUITALIA Guide proposes a selection of the best academic courses of schools/universities, trying in this way to represent a cultural guidance compass for the foreign student.

Italy is a nation which enchants in every Region for its naturalistic wonders, for its considerable historical, cultural and artistic heritage which turns our country into an open air gallery.

Italy is described by those who had the possibility to study and to live there, even for a short period, as a paradise for lovers of art, culture and savoir-vivre.

And I am sure that thanks to the EDUITALIA Guide, foreign students and schools abroad can choose their favourite places for the best cultural and, in the meantime, tourist experiences.

In the Guide they will be able to find, in fact, the courses of the best schools present in our country, including Design and Fashion institutes, Art institutes (Sculpture, Painting, Ceramics), Italian and foreign universities with their humanistic, technical and scientific courses even in English.

"A better world of peace can be created only with the birth of a new global citizen and the student is the driving force of this hope."
