I am delighted to introduce the “Study in Italy” Eduitalia Guide 2022. Over the years, this Guide has contributed to attracting many international students in our Country. Through its network of institutions, Eduitalia is at the forefront of the promotion of Italy’s educational system abroad.

Italy has a long history of excellence in education, where tradition and innovation go hand in hand to help students build the knowledge and skills necessary for their future. This Guide will help international students navigate the opportunities offered by the Italian educational institutions and find what best suits their needs in learning our language. Whatever field of studies they wish to pursue, Italy has a wide offer.

The promotion of Italian culture abroad is crucial to the mission of the Ministry of Foreign Affairs and International Cooperation. Italian culture is highly valued all over the world, and we are committed to making it known worldwide through our diplomatic network, which includes Italian Cultural Institutes and Italian Schools.

Education and the Italian language are two cornerstones of our global strategy. The internationalization of our educational system is a powerful instrument for cultural cooperation and for the promotion of the Italian culture and language abroad. The intake of international students in Italy has also a beneficial impact on our country’s cultural growth as well as its economy and projection abroad.

In 2020, the COVID pandemic strongly limited international student mobility. That has made us even more aware of the importance of international students coming to Italy for their education. Allowing international students back into our educational institutions safely was an objective of our strategy to recover from the crisis in 2021. While the challenges posed by the pandemic are not over, for 2022 we are working to strengthen the presence of our educational institutions on the international stage.

Eduitalia has long been a partner of the Ministry of Foreign Affairs and International Cooperation in our effort to promote the Italian language and attract students interested in our country. It is my hope and belief that Eduitalia will continue giving its contribution to our common goal.

I wish you and your students all the best for this academic year.

Benedetto Della Vedova

Under Secretary of State of the Ministry of Foreign Affairs and International Cooperation
Eduitalia is an Association of qualified Italian language Schools, Academies and Universities that offers courses to foreign students.

The Eduitalia member Schools, Academies and Universities offers a variety of courses. These courses are available in the most fascinating and beautiful cities and regions throughout Italy, extending from gorgeous seaside coastlines to the center of art and fashion. Many of these courses are also taught in English.
Italy is situated in the heart of the Mediterranean Sea, enjoying a mild climate with a multitude of landscapes. Two mountain ranges, charming lakes and many miles of sunny beaches principally characterize the country.

Italy is a nation that enchants you with each Region containing individual charm and naturalistic wonders, especially for its considerable historical, cultural and artistic heritage. It is also a country that prides itself on a culture of hospitality and a vast culinary tradition. Italy can justifiably be considered an open art gallery with its many testimonies to high quality art. UNESCO affirms that over half of the historical and artistic heritage in the world is found in Italy.

Everyone who has had the possibility to study and live abroad, even those coming for a short period of time, describes Italy as a paradise for lovers of art, culture and savoir-vivre. No other place in the world can boast the cultural and artistic treasures like Italy. From the largest city to the smallest village, one can immerse oneself in the deepest roots of Italian culture.

Come to study in Italy and explore this marvellous country.

Italy... a unique experience
Piemonte is in the north-west of Italy. As the name says, Piemonte (= foothills) is a land of mountains: in fact, it is surrounded on its three sides by the Alps, which enclose in this region the highest peaks and the largest glaciers in Italy. The spectacular mountains of the region create incredibly beautiful landscapes; there are many ski resorts as well, like Via Lattea and Sestriere, which welcome winter sports enthusiasts with their modern facilities.

Lake Maggiore is the most sought-after tourist resort, with Stresa and the Borromean Islands, charming landscapes with ancient villas surrounded by beautiful lawns. Yet, nature is only one of the many attractions in Piemonte.

This region has many other facets: from Turin – the Italian capital of cars – with its history and its remarkable artistic heritage, to other several old towns. Then charming medieval castles, including the stately castle of Ivrea, and precious architectures, like the famous Residences of the Royal House of Savoy and the Sacred Mountains.

Since September 2020, thanks to a new video conference technology and a new classroom setting, we have been able to accept students in presence and online at the same time.

Therefore, students can choose how to attend the classes.

Passepartout school of Italian Language was established in 1996.

In 2005 Passepartout was officially recognized by the Ministry of Public Education. Since 1996 we have focused on our students’ goals: communicating in Italian language in everyday life, at work, at the University, coming back home with a solid Italian language background.

During the classes, thanks to the small size of groups, all students can understand and speak Italian, using Italian language to communicate from the very first class. Grammatical structures are presented in order of complexity. Students improve by using new structures and vocabulary in the course as well during breaks and in the Italian contest.

Come see the beauty and culture of Italy
Friuli Venezia Giulia is situated in the north-east of Italy. Friuli Venezia Giulia overlooks the Adriatic Sea and is surrounded by high mountains, enclosing many different landscapes.

The mountain sceneries are spectacular as well, in the Eastern Dolomites, the Carnia and the Julian Alps, among lakes, valleys and protected areas. From its boundary with Veneto up to Monfalcone, the coast is trimmed with lagoons and has long sandy beaches, with several tourist resorts like famous Lignano Sabbiadoro.

The great variety of landscapes matches a rich and varied cultural heritage that was determined by a complex history and by the confluence of different civilizations in this territory.

Trieste is a charming town between mountain and sea, near the border with Slovenia. Istituto Venezia is the ideal choice for those who are planning to take an intensive Italian language course in Italy. We offer several different options to meet every possible request.

Every day the school organize activities for the students. The quality of teaching and of the educational materials is very important for us. Your teachers are always ready to help you, encourage you and comply with your learning method. Teachers work as a team and arrange daily meetings in order to organize the different teaching departments; they regularly update their teaching material and discuss and compare different techniques.

A trip through Liguria is a continuous search for hidden corners in a land where nature’s scent is that of salt and sun. This region is also full of monuments which appear suddenly and which fascinate the traveller with their amazing beauty.

Ancient defense towers stretch out towards this region’s signature blue sky, small churches are surrounded by clusters of pine trees and oak or chestnut woods, and sanctuaries are nestled upon mountain peaks. Miles of inland and sea paths full of stupendous panoramic views abound here, and traditional Ligurian cooking can be enjoyed at its many trattorie.

It is a jewel of land suspended between the sky and the sea, where there is always something new to discover and to love, from its many colorful festivals and fairs, to its cultural and international sports events.

“Sleeping in Castles, Eating in Castles”: A presentation of all the castles in this region that offers services to those who love wine, food, and unique places… or for those who need to organize lunches or banquets.

Emilia Romagna – The sites, the parks and the museums represent its archeological heritage, from the villages of Terramare through to the Etrurians, and the Romans up to the Byzantines.

The Emilia Romagna region is a friendly territory. This “land with a soul” offers visitors numerous places rich with rare art treasures to be discovered. If one wishes to travel throughout the entire region, we suggest visiting its institutional sites, which work as a starting point on getting to know the people, nature, art and spirit of this territory.
CULTURA ITALIANA
Bologna

Cultura Italiana (1980) is devoted to promoting Italian language and culture in the prestigious Palazzo Pepoli, (XIV c.). Total immersion in an authentic Italian environment is possible at Cultura Italiana, because there is no interference from other languages. In a few weeks all are able to communicate in an authentic Italian way (not like a tourist). We teach only Italian with a high degree of specilization, not other languages. We do not want to blend the languages together. An average 950 people attend our school every year, with an average weekly participation of 72 people. Cultura Italiana co-operates with the city authorities, with Bologna University and Siena University. It is the only school in Bologna of its kind specilising exclusively in teaching Italian.

Our courses are especially convenient in terms of cost-benefit ratio. They enable the student to achieve a solid grasp of the language in a short time. Students of elementary, intermediate and advanced levels are introduced into the use of Italian from the first day of their course. They are involved to speak finding their own way. In the intermediate and advanced levels, the teachers will help the students to widen their knowledge of the Italian language, so every day it is broader and deeper.

Classes are held by professional teachers. Each student will be catered for in accordance with his or her interests and needs.

1. Intensive courses (25 lessons of 45 minutes/week, 6-12 students/class, 10 hours/week extracurricular activities and 10 hours homework with tutor). These consist of learning Italian following the European Framework. There are 10 levels (4 basic, 4 intermediate, 2 higher).

2. Specially Designed Courses:

Travellers who want the best of central Italy should head for Le Marche, the third region alongside Tuscany and Umbria which makes up the area.

Located on the eastern side of central Italy, between the Adriatic Sea and the tall Apennine mountains, much of the region remains unspoiled by the ravages of mass tourism.

The Adriatic coast is known as a Mecca for “sun and sand” which has attracted holiday-goers for decades, but few venture far from the beaches. Inland, perhaps more so than anywhere else in central Italy, one can find places where time really has stood still. Compared to the more bustling tourist centers of central Italy, culture comes in more easily digestible portions here, without sacrificing quality.
Founded in 1985, Centro Studi Italiani is the first school for foreigners in the Marche region and one of the most respected institutions of its type in the world. Ever since its foundation, the school has provided Italian language and culture classes to more than 17,000 students from all over the world. The school has also branches in Milan and Genoa. Centro Studi Italiani offers all levels of Italian courses for students of all ages, from grammar to conversation classes for the absolute beginner to literature courses for the extremely advanced. The programs are therefore flexible, adaptable, varied, rich and unique. Classes are intentionally small to allow students to best relate to each other while enjoying personalized and individual attention from faculty. Examination center for: CELI and CEDILS certifications. Housing is available in comfortable fully furnished apartments or with host families.

Travelling throughout Umbria, the green heart of Italy, is a journey full of surprises. The region’s wealth of natural and artistic wonders seems almost inexhaustible.

One is continuously suspended between signs of a well-preserved past and a hint of a future that is entirely new, which has reawakened Umbria from a torpor that lasted for centuries since the Renaissance, bringing to light a region that is alive and exquisitely beautiful.

The Umbria of today has reinvented itself. The region has much to offer visitors, from sport, culture, and museums to epicurean delights, Thermal, and musical events. Umbria has a true vocation for beauty.

It is not easy to understand Sicily. Like a beautiful woman, Sicily requires a certain type of approach and cannot easily be won over. All one can do is to allow himself to be seduced, as were the first Mycenaeans when they passed through this way to buy obsidian and pumice stone in the Aeolian Islands when nothing else was known for cutting and polishing.

The Phoenicians also journeyed along these coasts, establishing trading stations and commerce with every corner of the Mediterranean. These were people who lived in peace, trading with Siculs, Sicans, and Elymians. Sicily welcomes everyone, and has always done so. Everyone becomes Sicilian—you don’t have to be born here to do so. Hermocrates of Syracuse made this point back in 424 BC when he said, “We are neither Ionians nor Dorians, we are Sicilians.”

We use the hand gestures of the ancient Phoenician merchants; We are as crafty as the Greeks, as captious as the Byzantines, as blasé as the knights of Andalusia, and we still show great respect for the dead and the necropolises of all those who died on the island.
The Center for Italian Studies “BABILONIA” in Taormina, Sicily, passionately dedicates itself to the study of the Italian language and culture.

“Casa Silva”, the historical house where our Center is located, is in the heart of Taormina: 200 meters away from the Greek Theatre along the beautiful staircase of Scalinata Timoleone. At “Casa Silva” our students can enjoy 1000 square meters of botanical garden with lemon, orange, tangerine, grapefruit trees, palm trees and other Mediterranean plant. This island also offers its visitors a crystal-clear sea, the perfume of Mediterranean vegetation and the fine hospitality of its people, both along the coast and inland. This enchanting island also offers a harmonious mixture of structures: the unrepeatable local Nuraghi stand side-by-side with Pisan towers, castles with Spanish bastions, churches, and other monuments.
